## INTERNATIONAL SEARCH REPORT

Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
Claims Nos.:     because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box ii Observations where unity of invention is lacking (Continuation of item 2 of first sheet)
This International Searching Authority found multiple inventions in this international application, as follows:
see additional sheet
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. X No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:  1-17, 28-37, 38-47, 49-53
Remark on Protest  The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 1-17,49-53,28-37,38-47

Independent claim 1 relates to a method for distributing electronic books to subscribers that comprises the steps of : determining a queue location for an ordered electronic book, placing first sections of electronic books in a first queue and placing second sections of electronic books in second queues.

Independent claim 38 relates to the same subject-matter as that of independent claim 1 in combination with dependent claim 2 differing only in that the method is claimed to be suitable for communicating between an electronic book distribution centre and an electronic viewer.

Independent claim 28 related to a method of distributing electronic books wherein a second section of a requested electronic book is retrieved and provided.

2. Claims: 18-27

Independent claim 18 relates to a method for delivering electronic books comprising the steps of: locating a requested main section of an electronic book and providing the located main section of the electronic book.

3. Claim: 48

Independent claim 48 relates to a method of displaying information to subscribers in an electronic book delivery system wherein first sections of electronic books are sent to electronic book readers, requests are received for second sections of electronic books corresponding to one or more of the sent first sections and second sections are sent to readers requesting the second sections.

4. Claims: 54-60

Independent method claim 54 relates to a method of prioritizing distribution of electronic books wherein electronic books are place in one of a plurality of queues, each queue being emptied according to a priority model.

5. Claims: 61-71

Independent method claim 61 relates to a method of providing

FURTHER	INFORMATION	CONTINUED FROM	PCT/ISA/	210

a virtual electronic book on demand service wherein first and second sections of selected electronic books are provided to subscribers of a service.
